- 1 x Interface Cable including USB Power
- 1 x Universal USB Power Supply including US, Euro & UK compatibility
- 1 x Meter Mount
- 1 x Panel Mount Template
- 1 x Quick Start Guide

BNC
Connector

USB
Connector

Multi-Pin
Connector

Desktop Mount Meter Assembly

Quick Start Guide...

When the contents have been checked please proceed as set out below:

1. Connect the interface cable to the multi-pin connector in the back of the meter.
2. Fit the mounting system if required (make sure the meter is the right way up, control buttons to the bottom).
3. Connect the AES3 BNC connector to the audio source.
4. Fit the correct power adaptor to the USB power supply.
5. Connect the USB connector to the USB power supply.
6. Connect the USB power supply adaptor into a mains outlet and turn on.
7. The meter display will immediately illuminate and the menu keys become visible.
8. The full user guide is available at www.dk-technologies.com/dkmeter
